Investing For A Green Future

Tamil Nadu Green Climate Fund (TNGCF) is a SEBI registered AIF (Social Impact Fund) that aims to invest in enterprises helping to mitigate/capture greenhouse gases and build climate resilience in the economy.

The Fund aims to:

- (i) Abate 6 million tonnes of CO₂ emissions per annum
- (ii) Recycle 0.6 million tonnes of waste or water per annum

Investment Focus

Energy Transition

Mobility

Circular Economy

Agri/Food/Forests

Investments aligned with UN SDGs

TNIFMC is an investment manager set up by the Government of Tamil Nadu along with leading financial institutions, to manage focused Alternative Investment Funds (AIF) as part of the Government policy initiatives for various segments of the economy such as affordable housing, MSME, and climate change.

The overarching goal is to accelerate private sector participation and contribution to achieve \$ 1 Trillion GDP for the State by 2030. The Government of Tamil Nadu is an anchor investor in all the Funds and has empowered TNIFMC with a professional Fund Management Team and independent Investment Committee with a focus on commercial returns. These AIFs will provide risk capital to enterprises in respective focus areas and will catalyse private sector investments in those segments.
